T18 MULTI-SEEDER

The **T18** Multi-Seeder from BULLOCK TILLAGE is a cost effective 12 volt applicator for distributing small seeds, cover crop seeds and grass seeds.

The **T18** Multi-Seeder can be positioned on a grass harrow, cultivator or linkage of a tractor.

The deflector hood is easily adjustable for width and depth of spread and allows for accurate placement of seeds. With the hood removed the Multi-Seeder will throw slug pellets to 12 metres.
